Subject: T601-20-10-003 - Shiloh Church Road Removal Assessment Support TD

Hi Chris!

I am reaching out regarding the Shiloh Church Road Removal Assessment Support TD (T601-20-10-003) that was previously managed by Nonresponsive based on revised scope. I noticed that the TD expired on September 30, 2021. I am not incredibly familiar with this project, and with taking over as Program Manager I am trying to tie up loose ends. Would you like for me to move forward with closing out the TD, or would you like to keep the project open?

Any information would be greatly appreciated, and please let me know if you have any questions. Feel free to call if it's easier to discuss.

Thank you for your help!
